

... the DealerVoice system has simply been the best investment we ever made ...

... you have delivered what was promised and more ...

... the best thing about the system is that it works ...

... more reliable than call centre staff ...

... we would highly recommend this system ...

Since 1996 DealerVoice has been dedicated to developing innovative contact management systems for the automotive dealership.

Advanced Customer Contact
Management Systems
for the Automotive Dealership

If you are not using DealerVoice - your customers are not getting the message

What is DealerVoice

An advanced turnkey contact management system, delivering short friendly voice messages or emails automatically to your customers.

Customer Preferred

An email or a pre-recorded voice message from one of your service representatives ensures you maintain your personal level of service. Customers can even choose their preferred method of contact.

Targeted Contacts

Maintain effective contact with all demographics by using a balance of telephone messages, email and mail to increase your CSI and customer retention.

Contact All Your Customers

Confidently call your entire customer base and generate reports to show detail and summary results.

Delivering Your Message

- Due for Service Reminders
- Special Order Parts Notifications
- Appointment follow-ups
- Repair Order CSI Surveys
- Vehicle Delivery CSI Surveys
- Custom Messages
- New Vehicle Prospecting

Fully Integrated

Using your existing in-house customer database, DealerVoice integrates your telephone and internet systems for maximum results.

Consistent And Efficient

Make hundreds of customer contacts each and every day. A simple setup allows you to choose the level of interaction required from customers and staff.

Guaranteed

The complete DealerVoice system is backed by worry-free technical support and an unbeatable money back guarantee ensuring a risk-free investment.

PRODUCT DESCRIPTION

Measurable Results

The DealerVoice system will generate at least 88 additional RO's per month.

Return On Investment (ROI)

In as little as 3.4 months your DealerVoice system will pay for itself, increase your Repair Order Sales and improve your CSI.

Other Benefits

- Maximizes Existing Resources
- Consistent and Efficient
- Lowest Cost per Contact
- Message and Contact Flexibility
- Customer Preferred
- Full Reporting Functions
- Targeted and Friendly Contacts

Exclusively Engineered

The DealerVoice system has been designed exclusively for Automotive Dealerships.

Proven Performance

For more than a decade over 200 dealers across North America have increased their profits with the DealerVoice system.

Solid Experience

The DealerVoice team brings you over 50 years of automotive dealership experience.

Still Not Convinced?

Ask the following questions of your current customer contact system:

- When did you last contact your entire customer base?
- Does your system contact hundreds of customers every day?
- Can your system guarantee 4 additional RO's per day?
- Will your system pay for itself within 3.4 months?
- Can you integrate and modify your existing system in minutes?
- Is your existing system secure?
- Are customers able to respond without wasting their time?
- Is your system cost effective?
- Does your system increase CSI?
